

Lenguas Club 

Advance your language skills naturally.

Our Goal

To help you advance your Spanish speaking skills so you can communicate fluently and confidently.

Lenguas Club 

The creator of the program
Marisol Marcin, Ph.D.

I am a professor of Global Studies at Binghamton University.

I hold a Ph.D. in Translation Studies.

My research is on language teaching and technology in education.

I have taught English and Spanish for over 20 years.

This is [my professional portfolio](#).

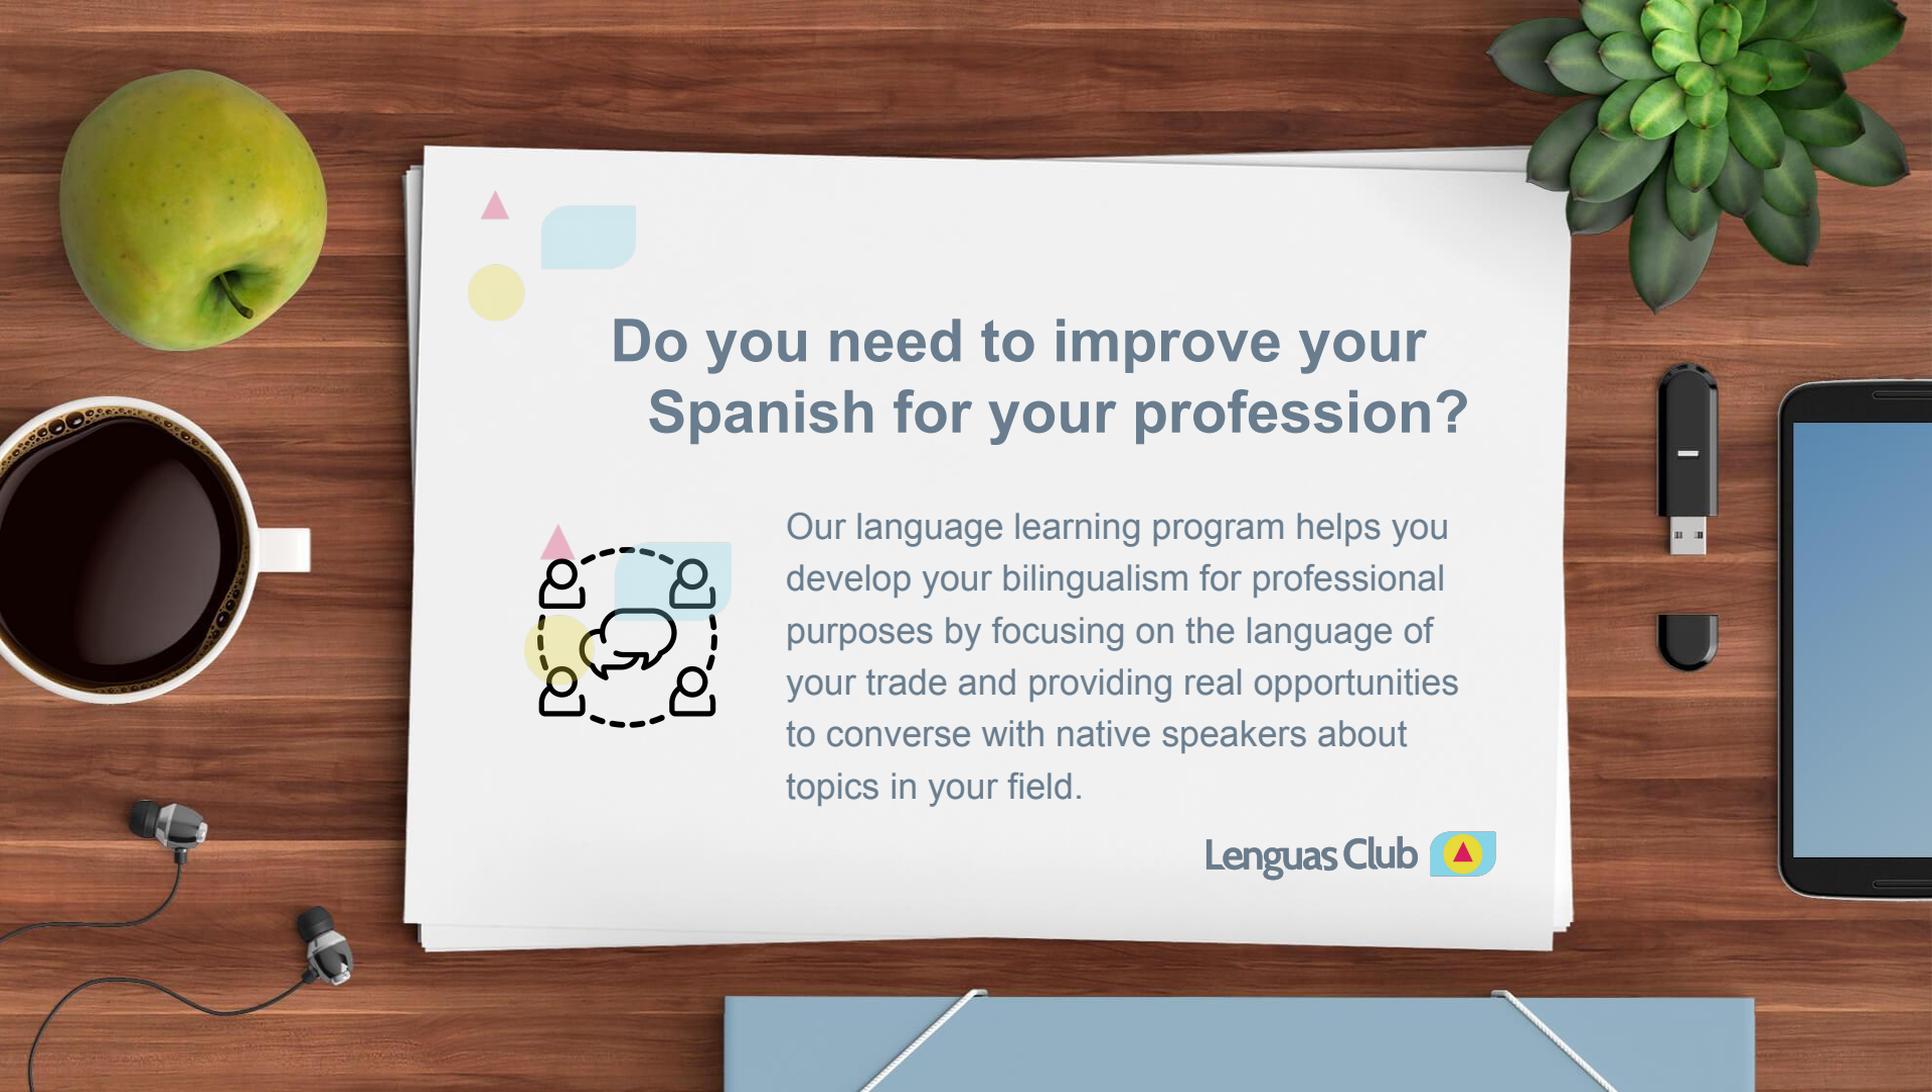

Do you want to increase your fluency in Spanish?

Our language learning program helps people speak naturally in a second language by focusing on real communication and extending the learning beyond the classroom.

Lenguas Club 

Do you need to improve your Spanish for your profession?

Our language learning program helps you develop your bilingualism for professional purposes by focusing on the language of your trade and providing real opportunities to converse with native speakers about topics in your field.

Lenguas Club 

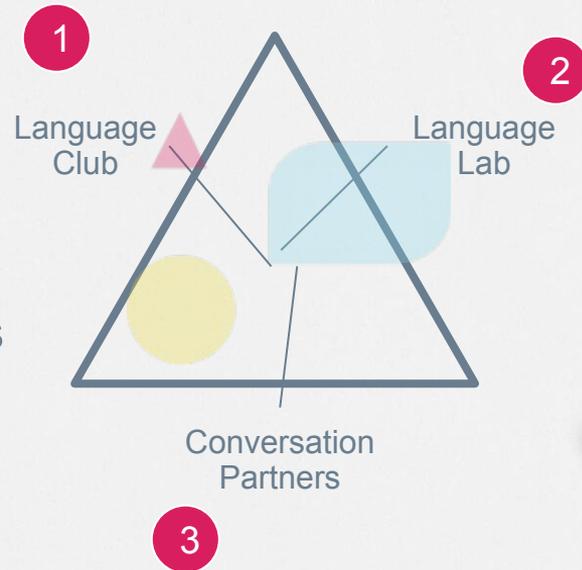

Are you a Spanish teacher wanting to gain confidence and fluency in the language you teach?

Our language learning program helps people who want to keep up with their second language by providing a virtual learning community to practice, and meeting your interests and schedules

Lenguas Club 

Lenguas Club has 3
three main components

Language Club

An authentic communicative experience
within a community of learners.

Lenguas Club 

The Language Club

- Focused on conversation.
- Weekly sessions.
- Small groups.
- Interesting topics.

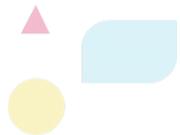

The Language Club is a virtual small group conversation session led by a native speaker. Learners talk about real issues and discuss topics of interest to the group. In these sessions, you will have many opportunities to talk and to listen to your peers.

Language Lab

This is a weekly virtual meeting to learn about different aspects of the language: pronunciation, expressions, and other aspects based on the needs of the group. If you have language questions, this is the place to find answers

Conversation Partners

These are individual virtual conversation sessions with different native speakers. Here you will develop your own strategies to communicate with a variety of people. In these conversations you will not only learn the language but will also learn about other cultural aspects that are key to good communication.

You also get

** learning with personal challenges through game dynamics.

- A gamified learning experience
- A community of engaged learners
- Access to a bank of learning resources to help you succeed

Lenguas Club 

Come join the Club!

And start speaking Spanish like
you really want to!

Lenguas Club 

Our program

Levels - Cycles
